Audience Segments & Targeting

What is Audience Segment?

Web Media Group (WMG) uses cutting edge technology based on Google's DoubleClick for Publishers software, that allows the company to segment the users based on their behavior and/or personal data.

WMG has over 100 segments based on the interests of its users and has built these on top of the habits, content and behavior through our platform.

All data bellow is anonymized audience segment members and their 30 day impressions within the platform of WMG, which consist of news.bg, money.bg, lifestyle.bg and topsport.bg.
